

SUPERBASE PRO 2000

Fastest Recharging IoT Power Station

80%
in Just One Hour

2,096Wh
Capacity

3000W
AmpUp

2400W
MAX Fast Charge

Features:

Recharge to 80% in just one hour

SuperBase Pro 2000 supports 7 ways to recharge. You can recharge it everywhere through dual MPPT, solar panels via AC/XT60, car charger, generator, AC outlet and grid+DC simultaneously.

It's Built to Move

Designed with "anytime, anywhere" in mind, with industrial-grade wheels and an extending handle. SuperBase Pro 2000 is always ready to roll.

14 outputs and 6.1" display

Over 20 pieces of relevant data, at your fingertips.

2,000W AC Output, AmpUp for 3,000W Compatibility

Power your microwave, washing machine, coffee maker, or other essentials around the house, worry-free.

The Fastest Solar Recharge Rate Available

With PVMax Patented Technology, SuperBase Pro 2000 can deliver up to 2,400W by AC 1800W and DC 600W charging at the same time. That's enough to fully charge SuperBase Pro 2000 in just 90 minutes.

Sized Just Right with 2,096Wh Capacity

Take SuperBase Pro 2000 on your next camping trip and enjoy long-lasting power for your laptop, led lamps, drone, projector, and more.

13ms UPS Backup Power

If the power goes out, SuperBase Pro 2000 will switch over to battery power automatically.

Built-in GPS and 4G IoT

Manage your power station from anywhere using the Zendure app. Check the location, remaining charge, and output power of your SuperBase Pro 2000, all in real time.

Specifications:

Product:	SuperBase Pro 2000	Output:	6 x AC*: 2,000W Max (100-120V), peak 4,000W; 2,000W Max (220-240V) 1 x Car Outlet: 13.6V/10A Max 3 x DC5521: 13.6V/10A Max USB-C(1): 5V-20V, 100W Max (5V/3A, 9V/3A, 12V/3A, 15V/3A, 20V/5A) USB-C(2): 5V-20V, 100W Max (5V/3A, 9V/3A, 12V/3A, 15V/3A, 20V/5A) USB-C(3)(4): 5V-12V, 20W Max Total (5V/2.4A, 9V/2.22A, 12V/1.67A)
Capacity:	2,096Wh		
Battery Cells:	Li-NMC		
Cycle Life (60%):	3,000		
Weight:	21.2kg		
Dimensions:	17.56 × 10.51 × 13.86 inches (44.6 x 27.6 x 35.2cm)	Input:	AC Input: 1,800W AC+DC (XT60) input: 2400W MAX DC Input: XT60; 12V-60V, 10A/600W Max
UPS Switching Speed:	13ms		
Charging Speed:	80% in 1 hour at 1,800W	Display:	6.1" Large Color LCD

*EU version has 4 AC outputs.
